

Dear General Motors Customer:

As the owner of a 2005 model year GMC Envoy XUV; a 2005-2006 model year Chevrolet SSR, TrailBlazer EXT or GMC Envoy XL; a 2005-2007 model year Buick Rainier, Chevrolet TrailBlazer or GMC Envoy, part of our commitment to you as a member of the General Motors family is providing you with important information whenever a specific condition may affect your vehicle.

**Please do not take your vehicle to your GM dealer as a result of this letter unless you believe that your vehicle has the condition described in the next paragraph.**

In some of these vehicles, the fuel level sensor may wear prematurely. This wear could cause the fuel gauge to read empty after filling the tank and cause the Service Engine and Low Fuel lights to illuminate. Illumination of these lights is accompanied by a chime when the vehicle is started. If your vehicle is equipped with a Driver Information Center (DIC), you will also see the Fuel Level Low message displayed. As the fuel level in the tank drops, the lights, DIC message, and chimes may turn off and the gauge may display a reading; however, the reading may indicate a slightly higher level of fuel than what is in the tank. Eventually as the sensor continues to wear, the fuel gauge will stop working, always read empty, and the Service Engine and Low Fuel lights will illuminate continuously, again accompanied by a chime when the vehicle is started and a Low Fuel Message in the DIC (if so equipped).

Even though your vehicle may no longer be covered by its New Vehicle Limited Warranty and you may not be the vehicle's original owner, we still want to help you correct this condition if it occurs on your vehicle.

GM will pay fifty percent (50%) of the total cost for an authorized Buick, Chevrolet, or GMC dealer to repair your vehicle if it has the condition described above. Your dealer will perform the required repair according to the labor time and part cost established by GM for warranty repairs. As you may know, dealer labor rates vary significantly from one part of the country to another, so it's difficult to accurately determine your actual savings, but it will be at least 50% of what you would pay to have this repair done for a vehicle that is beyond the GM New Vehicle Limited Warranty period.

If you agree to accept this offer, you will be responsible for the other half of the dealer's repair bill. This offer to equally share the repair cost only applies if your vehicle is currently exhibiting this condition or exhibits the condition within a period of 10 years or 120,000 miles (193,000 km), whichever occurs first, from the date your vehicle was originally placed in service.

This offer will significantly reduce costs you might incur if your vehicle has this condition and is beyond the terms of its new vehicle warranty.

This offer is also applicable to customer reimbursement requests related to this condition. If you have previously paid to have your fuel level sensor replaced, GM will reimburse you fifty percent (50%) of any reasonable and customary repair cost. Additionally, if you used an extended warranty or after-market service contract to pay for your fuel level sensor to be replaced, GM will pay fifty percent (50%) of any reasonable and customary deductible cost. If either of these scenarios applies to your situation, please complete the enclosed reimbursement request form

and present it to your dealer with all required documents. Working with your dealer will expedite your request, however, if this is not convenient, you may mail the completed form and all required documents to Reimbursement Department, PO Box 33170, Detroit, MI 48232-5170. The completed form and required documents must be presented to your dealer or received by the Reimbursement Department by September 30, 2012, unless state law specifies a longer reimbursement period.

If you have any questions about this special coverage offer, please contact your local GM dealer or the GM Customer Assistance Center at the number listed below.

Division	Number	Text Telephones (TTY)
Buick	1-800-521-7300	1-800-832-8425
