- [Suggestions](#)

## Elsa News and Updates

ElsaWeb users will soon see a new pop-up messaging feature when first logging in to ElsaWeb called “Elsa News and Updates.” The feature’s purpose is to display important communications, such as system outages, as well as provide links to different topics and archived messages. This feature also may be used for asking a survey question to help the Service Information Team gain valuable feedback.

The messaging feature will be fully controllable. You can jump to topics, view archived messages, and close the feature at any time. Additionally, the feature will timeout after several minutes of inactivity or will close after a set number of minutes. If the feature closes before you have the chance to read its contents, you can view the information on ServiceNet.

The new Elsa News and Updates messaging feature is another way that the Service Information Team is helping you keep informed of all things having to do with ElsaWeb.

## Feedback Corner

This week's feedback is from Heinz, regarding a 2013 allroad Repair Manual. He stated:

"The complete engine mechanical section is missing in ElsaWeb for the 2.0 TFSI engine (CPMA engine code)"

This feedback was reviewed by the Service Information Team and the Repair Manual was fixed to show the correct data. We really appreciate you sending in feedback to help improve the quality of the Repair Information.

Feedback Status		
New	Completed	To Factory
10	7	19

\*Please note that this feedback feature is not the place to obtain technical assistance for Audi vehicles, or to report potential issues you may have experienced with a vehicle. If you require assistance in repairing or diagnosing a vehicle issue, or wish to report a technical issue, please create an Audi Technical Assistance ticket and contact the Audi Technical Assistance at (800)-678-2389.
