****AUTO**ALL FOR AADC 956

[Redacted]
[Redacted]
STOCKTON CA 95203 [Redacted]

Dear Customer:

Cummins Inc. is initiating campaign activities on the Engine Control Module's (ECM) software in some 2015 ISX12 and ISX15 CM2350 engines.

Our records indicate that you own the Cummins ISX12 or ISX15 CM2350 engine(s) listed below.

Engine Serial Number	Vehicle Manufacturer	Vehicle Serial Number
79813016	[Redacted]	[Redacted]

To ensure the Engine is compliant with emissions regulations, Cummins Inc. has launched Campaign 1742, ISX15/ISX12 CM2350 ECM Calibration Emissions Campaign to update the Engine's ECM software. This letter is to inform you that the Engine(s) listed above is/are eligible for the campaign. The parts and labor for this repair will be provided to you at no cost. Retroactive Coverage has been extended for this software update. Please contact your Cummins certified service location if the Engine's ECM software update was made prior to the release of the Campaign 1742 for reimbursement consideration.

California residents: The State of California requires the completion of emission campaign repairs prior to vehicle registration renewal. Your Authorized Cummins Repair location will provide you with an Emissions Campaign Proof of Correction Form after the campaign is performed. **Be sure to save this form since the California Department of Motor Vehicles may require that you supply it as proof that the campaign has been performed.**

We strongly urge you to take advantage of this system improvement as soon as possible. Please call you local Cummins certified service location to learn more about Campaign 1742 and to schedule a service appointment.

For assistance locating your nearest Cummins certified service location, please visit us on the web at www.everytime.cummins.com and click "Service Locator" at the top of the page. You are also welcome to call us at 1-800-DIESELS and select option 4.

Sincerely,

Cummins Campaign Administration
