Re: **REINSTATED:** 16-030 Product Update: Software Update for Lock-up Clutch Function
REINSTATED: 16-040 Warranty Extension: 2012 TL Torque Converter

Today, August 3, 2016, Acura reinstated the temporarily suspended service bulletins 16-030, *Product Update: Software Update for Lock-up Function* and 16-040, *Warranty Extension: 2012 TL Torque Converter* in the Service Information System. There were concerns with VIN Inquiry on iN and software update VIN database mismatches.

The HDS database has been updated with all affected vehicles. Vehicles can be updated or repaired under either bulletin. Vehicles already fixed under either will not require further action due to this change; claims need to be processed for the repairs if one was not submitted prior to July 21, 2016.
