

SSM 45872	When servicing the 3.2L diesel fuel filter on a 2015-2016 Transit vehicle, a large strap type oil filter wrench may be used to aid in rotation of the fuel filter housing bowl. Large strap wrenches such as LIS63500 or OTC7062A can be procured through Rotunda Technician Tool Program (RTTP), or locally. In the event of damage, the fuel filter housing bowl (base 9364) is available separate of the assembly.
