

Bubbling/Blistering Paint on White-Colored Front Bumpers

AFFECTED VEHICLES

2016 HR-V

EDITOR'S NOTE: This article replaces the one posted in **September 2016** to extend the article's shelf life. The issue(s) covered are still being addressed.

Is the paint bubbling/blistering on white-colored front bumpers? Some bumpers also show pink blotches in the same area.

We're aware of this issue and have it under investigation. At this time, contact your DPSPM for further evaluation. In most cases, the bumper will need to be repainted.
