

Rear Window Glass Looks Distorted or Blurry

AFFECTED VEHICLES

2013–16 Accord

EDITOR'S NOTE: This article replaces the one posted in **October 2016** to extend the article's shelf life. The issue(s) covered are still being addressed.

Does the rear window glass look distorted or blurry, especially when viewed through the rearview mirror? We're currently reviewing this issue and are looking for a solution.

This issue also affects service parts, so **do not** replace the rear window glass until we have a solution available.
