Subject 2003 Odyssey SRS Unit Safety Recall/Parts Collection Project

DATE: April 14, 2015

TO: All Honda Sales, Service & Parts Managers and Personnel
FROM: American Honda Parts, Service & Technical Division, Campaign Administration
RE: 2003 Odyssey SRS Unit Safety Recall/Parts Collection Project

Background:

Currently for 2003-2004 Odyssey there are two related SRS unit recalls:

- 13-088 "Safety Recall: Electrical Noise May Cause Inadvertent Front Airbag Deployment"
- 15-013 "Safety Recall: SRS Unit". **Repair procedure is due in late summer.**

Today:

American Honda is announcing service bulletin 15-026 "SRS Unit Collection" for a small number of 2003 Odyssey vehicles that overlaps the Safety Recalls indicated above. American Honda is proactively reaching out to customers eligible for this collection procedure. Eligible vehicles can be identified through VIN status inquiry. Repair, parts and warranty procedures are outlined in S/B 15-026. Please note that SRS unit kits are controlled parts, and must be ordered accordingly. Once a sufficient number of parts have been collected, American Honda will cancel this activity, and vehicles will no longer show as eligible through VIN inquiry.

This activity involves removing and replacing the SRS unit kit, and returning the original unit kit to American Honda for analysis. Your timely processing of warranty claims and SRS unit kit returns to WPI are needed to support this project.

IMPORTANT:

Please be aware that when the VIN status inquiry is performed the following Recalls **may** appear for a single vehicle:

15-026 SRS Unit Collection

13-088 Safety Recall: Electrical Noise May Cause Inadvertent Front Airbag Deployment

15-013 Safety Recall: SRS Unit

When any of the listed Recalls above are indicated in conjunction with 15-026 "SRS Unit Collection", perform only 15-026. Once this Recall is performed and the warranty claim is received it will satisfy all of these listed Recalls. American Honda will subsequently cancel the remaining Recall(s) and they will no longer show when a VIN Status Inquiry is performed for this vehicle.

As always, be sure to verify a vehicle's eligibility prior to starting any work or ordering any parts, and to confirm whether any other outstanding Recalls besides those addressed here exist.
