Accessory Service Bulletin

2012-14 Tacoma Parasitic Draw SET Accessory Fog Lights

Applicability

YEAR(S)	MODEL(S)	INSTALLED ACCESSORY INFORMATION		
		DESCRIPTION	ACCESSORY CODE	KIT PART NUMBER
2012-14	Tacoma	Fog Lights	LF10	00016-35220

****This Publication does not apply to Vehicles Originally Equipped with a Fog Lamps from the factory or Systems added by other manufacturers.**

Introduction

Some 2012-2014 Tacoma vehicles equipped with SET accessory fog lights may exhibit a customer concern of no crank or crank no start due to low battery voltage after long term vehicle storage. This condition can be caused by a parasitic draw from the SET accessory fog lights. The following modifications to the SET accessory fog lamps will reduce battery parasitic drain, improving long term vehicle storage battery life.

Warranty Information

For Dealers located in the Southeast Region, Florida, Georgia, Alabama, South Carolina, or North Carolina, Submit Warranty claim utilizing the information below.

OP CODE	DESCRIPTION	TIME	OFF	T1	T2
ALF051	Fog Light Wire Harness Replacement	1.0	00016-32260-01	99	99
Port Installed Option (PIO) - is in effect for 36 months or 36,000 miles from the vehicle's in-service date, whichever occurs first. <i>Unless otherwise specified in vehicle VIN inquiry.</i>					
Dealer Installed Option (DIO) - is in effect for 12 months, regardless of mileage, from the date the part(s) was installed on the vehicle or the remainder of any applicable New Vehicle Limited Warranty, whichever provides greater coverage.					
Over the Counter Sale (OCS) - is in effect for 12 months, regardless of mileage, from the date the part(s) were sold. Labor is not warranted for over-the counter service part replacements.					

If you are a dealer located outside of the Southeast Region, please contact the SET Accessory Warranty Department at (888) 851-2722 or email Accessory.Warranty@SEToyota.com for claim payment instructions.

Parts Information

00016-35220-01	Fog Light Wire Harness

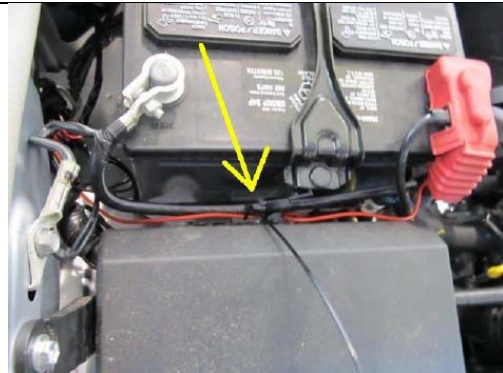

If you are a dealer outside of the SET region, please contact the SET accessory department at (888) 851-2722 or email Accessory.Warranty@SEToyota.com.

Tacoma Fog Light Parasitic Draw

Inspection

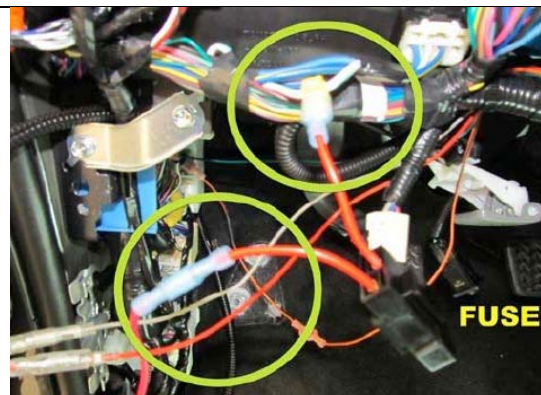

1. Perform a TIS VIN inquiry to verify Vehicle has SET Accessory fog lights installed.
 - Port Installed Accessories are identified with “LF 10: Fog Lights” in the Vehicle Info Tab
 - Dealer installed Accessories are identified with the kit part number (00016-35220) appears in service history.
 - This TSB does not apply if vehicle does not have SET accessory fog lights.
2. Inspect accessory wiring.

- The Fog Light Positive (Red) wire is connected to the Positive Battery Terminal.

- In this configuration the Accessory Fog light relays tied to the harness behind the driver’s kick panel will have 12 volts available at all times.
- Proceed to Repair Section in this TSB.

- The Fog Light Positive (Red) wire is connected to a White-Green near instrument panel junction block connector 1A pin 5

- In this configuration the Accessory Fog light relays tied to the harness behind the driver’s kick panel will have 12 volts only when Ignition “ON”.
- This TSB **DOES NOT** apply. Refer to Service Manual for further diagnostic info.

Tacoma Fog Light Parasitic Draw

Repair

1. Replace Accessory Wire Harness

Reference 00016-35220 SET Accessory Installation instructions on TIS for replacement of 00016-35220-01 Wire harness.

Instructions were updated to reflect changes of system on 11/4/2013

2. Verify Parasitic Amp draw measurement.
 - If parasitic draw exceeds specification, refer to TIS for further diagnostics.
