<b>Models</b>	XE / X760 XF / X260
<b>Title</b>	AEB (Automated Emergency Braking) Initializing Displayed
<b>Category</b>	Electrical
<b>Last modified</b>	29-Mar-2017 00:00:00
<b>Symptom</b>	206000 Warning Indicators

**Content**      **Issue:**  
Instrument Cluster displays AEB initializing message (Image Processing Module A (IPMA) - DTC C1001-49 Flagged).

**Cause:**  
DTC recording strategy is too sensitive.

- Action:**
1. AEB Initializing message on the cluster does not imply that there is a fault with the system; it warns the customer that the system is initializing and the AEB performance during this period is limited.
  2. If the AEB initializing message is displayed after starting to drive the car and disappears after a few minutes,
    - Do not replace the IPMA module and instruct the client to read the Handbook chapter for Brakes.
    - Note - The System Function operates to design.
  3. XF (X260 only) If the AEB Initializing message is accompanied by the C1001-49 DTC and if the DTC is in the intermittent or historical status:
    - Update the IPMA module to the latest software level,
  4. If the IPMA features of Traffic Sign Recognition (TSR), Automated Emergency Brake (AEB), Lane Departure Warning (LDW) and Automated Headlamp Beam (AHB) are functional:
    - Do not replace the camera.
  5. Clear the DTCs and retest.
  6. If the fault persists, carry out battery reset.
  7. If DTC C1001-49 remains in the present state after the 5 minutes key off time or AEB Initializing message is present all the time in two consecutive drive cycles and the IPMA features (TSR, AEB, LDW, AHB) are still not functional:
    - Replace the IPMA module.
  8. Confirm that the vehicle is rectified by submitting an EPQR.

Technicians - Please rate this SSM and provide comments so that future communications can be improved.

1 = Poor – Basic information provided – The SSM does not help me resolve the customer concern.

3 = Average – Adequate information provided – The SSM partially helps me resolve the customer concern.

5 = Excellent – All required information provided to resolve the customer concern.
