### SERVICE INFORMATION

When diagnosing for DTC C1130 (ENGINE SIGNAL): ECM related DTCs (P-codes) must be diagnosed, repaired, and DTCs erased first.

- DTC C1130 is an ABS DTC that indicates an output signal of the ECM is not recognized.
- Absent or incorrect ECM signals, that are indicated by corresponding P-codes, may trigger C1130 in the ABS control unit.
- Some vehicle features that can be affected by absent or incorrect ECM signals are:
  - Forward Emergency Braking (FEB)
  - Intelligent Cruise Control (ICC)
  - VDC/ABS/TCS

Infiniti Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Infiniti retailer to determine if this applies to your vehicle.
