2016 Golf, GTI, Sportwagen-91N9 Update Freezes

The 91N9 Update may freeze during the update process.

If the screen freezes on the following screen, press the back arrow in the upper right corner and the software update will continue.

If the screen freezes on the following screen, hold down the power button on the radio for 10 seconds to reboot the J794. The software update should start where it left off.
