Audi Vehicle Condition Report

Stock No. _____

Dealer Number _____

R.O. No. _____

VIN _____

Model _____

Initial PDI Vehicle Inspection

Complete the following checks within 2 business days (48 hours) of receiving a vehicle

- Remove full body cover (if installed) following TSB 2009967.
Check for transportation damage
Note: This is a two-person task
- Verify all keys are included (2 master, 1 emergency, 1 valet)
- Inspect painted surfaces/molding/glass
- Inspect body for paint defects and damage
- Set tires to maximum recommended tire pressures listed on the B-pillar doorjamb, and store tire pressure values in Car/System menu

- Check the battery prior to starting engine with MCR340A.
Record MCR340A code: _____ or attach printout (R8/R8 Spyder, TT/TTS/TTRS only)
- Perform the A-battery test for new batteries using GFF in ODIS Diagnosis -> Special functions -> Service work. Select option 2, the battery test for new batteries as part of the pre-delivery inspection and act according to the test result (ok, recharge, replace). Ensure diagnosis log is uploaded to the GFF paperless server by selecting "ok" when tester wants to send the current generated diagnosis protocol online. (**Note: Do not use Guided Functions. The diagnosis log will not be uploaded to GFF paperless**)

I certify that all operations have been completed and this vehicle has been prepared in accordance with Audi Procedures and Quality Standards.
