

Engine Data Label
 VAH, VHD, VN, VT

FSB 210-001, Engine Data Label

(October 2013)

An engine emissions data label is now required on all engines sold. If a replacement engine label is needed, dealers can now order factory replacement engine labels from the VOLVO Parts Technical department.

Previously, these labels could be printed using the VCADS-Pro Service Tool. In order to supply factory quality replacement labels, all labels should now be ordered via requests from Parts Technical.

To order a replacement label:

1. Complete the included form with the current label part number, engine serial number, truck serial number and a PO number. Complete the attached "Required Information" form. Attach the completed form to the E-Service case.
2. The label will be printed and shipped within 24 to 48 hours of receiving the E-Service case on Monday through Friday.
3. Your dealer account number will be billed \$50 US or \$75 CND against your PO number as "Engine Label."

Note: Applications must be completed and ordered by the dealers only.

Replacement engine labels are needed for a variety of reasons such as: engine replacement and lost or missing labels. Replacement engine labels are available from 1980 to current.

Note: Replacement engine label requests must be completed and ordered by a certified VOLVO dealer only.

- To obtain replacement engine label refer to "Application for Engine Emission or Vehicle Identification Labels", page 2
- For emission label information refer to "EPA Family Name and/or Emissions Information", page 4

Service personnel: Please circulate, read and initial

Application for Engine Emission or Vehicle Identification Labels

Application for Engine Emission or Vehicle Identification Labels
Mack Trucks, Inc. and Volvo Trucks North America

Application is hereby made by _____
(Name of Applicant)

of _____
(Address of Applicant)

on ____/____/____ for the issuance of an:
(mm/dd/yy)

Check (✓) applicable label(s)

<input type="checkbox"/> Engine Emission Label	P.O. _____
<input type="checkbox"/> Vehicle Identification Label	
<input type="checkbox"/> Vehicle Identification Plate (Mack Only)	
<input type="checkbox"/> GVWR Label	Contact Name _____
<input type="checkbox"/> Weight Certification Letter	
<input type="checkbox"/> CARB Label	Contact Phone _____
<input type="checkbox"/> Incomplete Vehicle Document	

All labels cost \$50.00 USD / \$75.00 CAD each and are applied to the following motor vehicle:

Make _____ Model _____ Model Year _____

Vehicle Identification No. _____ Engine Serial No. _____

Registration Number _____ State/Prov. ____ Issued for Year _____

Name of Owner as Appearing on Certificate Title _____

Address _____

From Whom Purchased _____
(Name)

of _____
(Address)

Date of Purchase _____ Place of Purchase _____
(mm/dd/yy)

Give reason for replacement of label _____

Requesting Branch or Distributor _____ - _____
(Name) (Dealer Code)

The above information is given with the knowledge that it may be submitted to the appropriate state/provincial authorities.

Instructions: Please attach to an eService case when complete.

EPA Family Name and/or Emissions Information

The Diesel Emission Reduction Act of 2005 and the American Reinvestment and Recovery Act of 2009 provide federal funds for states to implement diesel emission reduction programs, including financial incentives for early replacement of engines and vehicles. As a result of these and other federal programs, financial incentives are available to truck owners to update their vehicles to cleaner more efficient units. The process typically requires the vehicle owner to supply the EPA “Engine Family Name” of the older unit. Obtain the engine family name using the following procedure;

Step 1 – The EPA Family Name is obtained from the “Important Engine Information” label located on the engine’s front valve cover.

VOLVO		IMPORTANT ENGINE INFORMATION		RENSEIGNEMENTS IMPORTANTS MOTEUR	
ENGINE FAMILY: CVP110.8S01		ENGINE MODEL: D11H325		SERIAL NO.: 123456	
FAMILLE DE MOTEURS:		MODELE MOTEUR:		NO. SERIE:	
DISPLACEMENT CYLINDREE	ADVERTISED HP @ RPM PUISS. SPEC. @ TOURS / MIN.	FUEL RATE @ ADVERTISED HP DEBIT DE CARB. @ PUISS. SPEC.	IDLE SPEED RALENTI	ENGINE BRAKE FREIN MOTEUR	
10.8 L	325/1700	201 mm ³ /STROKE mm ³ /COUP	550-700 RPM	----	
THIS ENGINE CONFORMS TO U.S. EPA AND CALIFORNIA REGULATIONS APPLICABLE TO 2012 MODEL YEAR NEW HEAVY-DUTY ENGINES AND HAS A PRIMARY INTENDED SERVICE APPLICATION AS A HEAVY HEAVY-DUTY DIESEL ENGINE.					
Ce moteur est conforme aux réglementations de Californie et de l'Agence de Protection de l' Environnement des États-Unis applicables aux nouveaux moteurs diesel Heavy duty (Gamme lourde) modèle 2012. La principale application s'adresse aux usages de type gamme lourde (Heavy-heavy-duty).					
EXHAUST EMISSION CONTROL SYSTEM DISPOSITIF ANTI-POLLUTION		THIS ENGINE IS CERTIFIED TO OPERATE ON ULTRA LOW SULFUR DIESEL FUEL ONLY.		LABEL NO DELEGATED ASSEMBLY 21791455	
TC, CAC, EGR, DDI, ECM, DOC, PTOX, SCR, AMOX					

W1078692

Note: The EPA Engine Family is located on every engine label ever produced. The older aluminum plates were steel stamped with the “Important Engine Information.” Unless the label is missing on the engine, or unreadable, all engine information is obtained from this label.

Step 2 – If the engine label is missing or unreadable, the EPA Family Name can be obtained for select vehicles from VOLVO Parts Specification via E-Service.

Sometimes, the EPA Certificate of Conformity is needed. If this information is needed, please provide the EPA Engine Family Name identified on the “Important Engine Information” label. If the EPA engine family name is not available, complete the required information below.

If the engine label is missing or unreadable then the EPA is requiring the customer to purchase a new label. This label can be purchased from VOLVO Trucks North America through a VOLVO dealer.

Required Information

Name:

Address:

Phone:

Email Address:

Mark the appropriate box for the information needed.

EPA Engine Family Name Needed EPA Certificate of Conformity

Provide EPA Engine Family Name (only if an EPA Certificate is needed)	
Vehicle Identification Number	
Engine Model and Serial Number	
Is the engine mechanically or electronically controlled	
If mechanically governed, provide the injection pump part number.	
If electronically governed, provide the original <u>datafile</u> part number with the assistance of your Volvo Truck Dealer
