Subject Stop Sale/Recall: 2002-06 Multi-Model Airbag Inflator SALES UPDATE

DATE: July 16, 2014

TO: All Acura Sales Managers and Personnel
FROM: Acura Parts, Service & Technical Division, Campaign Administration
RE: Stop Sale/Recall: 2002-06 Multi-Model Airbag Inflator **SALES UPDATE**

On Monday, June 23, 2014, Acura announced three recalls for various 2002-06 Acura models. At this time, affected VINs have not been determined. Due to this, the following models are subject to a **recall** and **stop sale order** in all regions of the United States and US territories:

2002-03 CL
2003-06 MDX
2005 RL
2002-03 TL

Because both VIN information and parts availability are unclear, Acura is providing the following document to facilitate sales of potentially affected units. Should a client request the purchase of a potentially affected vehicle, the client should be advised of the situation, and the following disclosure agreement must be signed. This document must be filled out completely, including client's signature, for any vehicle within the model/year ranges listed above.

Click [here](#) for a copy of the document.

Once the document is filled out, please scan it and send it to acura_recall@ahm.acura.com. Acura will collect these documents for use with the client notification phase of these recall actions.

Once additional information regarding affected VINs is available, Acura will activate VIN status inquiry and update all dealers via iN message and service bulletin.
