## TECHNICAL OPERATIONS

**SUBJECT:** INSTANTANEOUS FUEL MILEAGE NOT PRESENT ON INSTRUMENT CLUSTER DISPLAY

This Pitstop provides information regarding the instantaneous fuel mileage not displayed in the fuel economy menu of the trip computer in Type A instrument clusters on some 2014-2018MY Forte (YD) and 2017-2018MY Forte (YDm) vehicles. In some cases, an inadvertent press of the RESET (A) button may toggle the instantaneous MPG display off in the center display. To correct this concern, press the TRIP (B) button until the trip computer menu is displayed and then press (do not hold) the reset button once to turn on the instantaneous MPG.
