REVISION NOTICE

January 11, 2018 Rev1:

- **The entire bulletin has been updated.**

Any previous printed versions of this bulletin should be discarded.

Introduction

Some 2017 – 2018 model year Prius Prime vehicles equipped with Entune™ Premium Audio (R10A5430) or earlier may exhibit one or more of the following conditions. Updated multimedia software is now available to address these conditions. Follow the Multimedia Software Update Procedure in this bulletin to install the latest software version.

- No iPod connection when connecting via USB
- Intermittent rebooting when connecting/disconnecting the iPod USB
- Intermittent error screen when connecting/disconnecting the iPod USB
- Navigation screen is locked after ACC/ON
- Internet radio is inoperative after connecting/disconnecting the iPod USB
- Screen flick operation updates
- Navigation voice guidance is intermittently in the wrong language
- Audio does not mute when using Siri Eyes Free
- Hands-free call is disconnected when another call is received
- Voice cannot be heard for several seconds on the handset after the navigation unit is turned off

Entune Audio Head Unit Software Update (Denso)

Introduction (Continued)

MULTIMEDIA SOFTWARE FILE DOWNLOAD

The Multimedia software update file may be downloaded directly from this Service Bulletin by clicking on the applicable file name in the table above. Once downloaded, the file may be copied directly to a commonly available blank USB flash drive.

For USB flash drive requirements and download instructions: Refer to *TIS – Diagnostics – Calibrations – Reference Documents – "Multimedia Software Download Instructions"*

</div>

Entune Audio Head Unit Software Update (Denso)

Multimedia Software Update Procedure

1. Confirm the audio system type by checking the panel ID printed on the bottom of the head unit.

   Figure 1.

   Table 1.

MODEL	ENTUNE™ PREMIUM AUDIO
Prius Prime	E7051
	E7052

2. Perform steps 6 – 11 to check the current software version.

   Does the head unit need the update performed?
   - **YES —** Continue to step 3.
   - **NO —** This bulletin does NOT apply. Continue diagnosis using the applicable Repair Manual.

3. Download the correct multimedia software update file for the vehicle and install it onto a USB flash drive.

4. Ready "ON" the vehicle.

5. Insert the USB flash drive with the downloaded multimedia software update file into the vehicle's USB port.
