
INTEROFFICE MEMORANDUM

Original Publication Date: June 22, 2017

To: All Toyota Region and Private Distributor General Managers / Vice Presidents

From: Bob Waltz 
Group Vice-President, Product Quality and Service Support

Subject: Warranty Enhancement Program – ZG6
Certain 2011 Model Year Tundra and Sequoia Vehicles
Extension of Warranty Coverage for Air Injection Pumps and Air Switching Valves

Specific information for Region support is provided below.

Condition

Toyota has received a number of reports regarding Air Injection Pumps and Air Switching Valves in certain 2011 Model Year Tundra and Sequoia Vehicles. In these reports, customers have indicated concerns regarding the illumination of the check engine light (Malfunction Indicator Light) due to moisture/water in the Air Injection Pumps and/or Air Switching Valves.

Although the Air Injection Pumps and Air Switching Valves are covered by Toyota's New Vehicle Limited Basic Warranty* for 3 years or 36,000 miles (whichever comes first) and by the California Emission Warranty* for 7 years or 70,000 miles (whichever comes first), we at Toyota care about the customers' ownership experience. Toyota is now extending the warranty coverage for repairs related to illumination of the check engine light (Malfunction Indicator Light) due to moisture/water in the Air Injection Pumps and/or Air Switching Valves.

The following information is provided to inform you and your staff of the program notification schedule and your degree of involvement.

Dealer Notification

The attached dealer letter will be sent to all Toyota dealers on June 22, 2017.

Please reference the attached Dealer Letter for additional details.

Please review this notification with your staff to assure that all relevant personnel have been briefed regarding this subject.

Thank you for your cooperation.
