Attention: For 2007 Cadillac models, please refer to the most current version of Corporate Bulletin Number 07-06-01-013 for early build timing chain identification.

This bulletin is being revised to temporarily remove content. Please discard Corporate Bulletin Number 12-06-01-009 (Section 06 – Engine/Propulsion System).

The content of this bulletin has been temporary removed from Service Information due to a part shortage. Parts will be available in the near future. Once parts become available, this bulletin will be revised.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
