

Warranty Communication

Audi Warranty

Number: AWC-17-38

**Subject: Class Bridge Warranty Now Inactive for 3.0L TDI
Gen 2.1 Q7 Vehicles**

Date: Nov 1, 2017

Dealers: U.S., Puerto Rico

This document conveys general
Warranty information.

Effective Nov 6, 2017, the Class Bridge Warranty is no longer active for 3.0L TDI Gen 2.1 Q7 vehicles, due to the approval of an Emissions Compliant Repair (ECR) for these vehicles.

As explained in Warranty Policies and Procedures Bulletin AWA 17-02, the Class Bridge Warranty only applies until the ECR is approved, therefore, Warranty Key U97 will no longer appear as an active warranty key for these vehicles in SAGA/ElsaPro. However, the key is still valid for the other 3.0L TDI vehicles for which an ECR has not been approved, and will remain so until an ECR is approved for those vehicles.

Questions or concerns may be directed to Audi Warranty at 866.677.2834 or AudiWarranty@audi.com.
