# Best Practices for Tire Pressure Warning Valve and Transmitter Removal and Installation

Service Category

Suspension

Section

Tire/Wheel

Applicability

13-14MY Scion Models

## APPLICABLE VEHICLES

2014	xD	2013	iQ EV
2014	FR-S	2014	xB
2014	tC	2014	iQ

## RECOMMENDATIONS

To minimize possible damage to the tire pressure warning valve and transmitter, the following guidelines should be practiced when dismounting or mounting tires onto wheels that contain a Tire Pressure Monitoring System (TPMS).

- Before dismounting the tire from the wheel, make sure that the tire pressure warning valve and transmitter are disassembled and dropped inside or removed from the tire.
- The position of the main body of the tire pressure warning valve and transmitter should be within the recommended zone on the tire changing machine, as shown in the Repair Manual, based on the rotation direction of the tire mounting machine.
- Be careful not to damage the tire pressure warning valve and transmitter. Make sure that the tire bead and tool does not interfere with the main body of the tire pressure warning valve and transmitter and that it is not clamped by the bead.

### Scion TPMS Repair Manual Quick Reference Chart

Model	Model Year	Process	Reference Link
iQ	2014	Removal	Link Reference 1.
		Installation	Link Reference 2.
iQ EV	2013	Removal	Link Reference 3.
		Installation	Link Reference 4.
tC	2014	Removal	Link Reference 5.
		Installation	Link Reference 6.
xB	2014	Removal	Link Reference 7.
		Installation	Link Reference 8.
xD	2014	Removal	Link Reference 9.
		Installation	Link Reference 10.
FR-S	2014	Removal	Link Reference 11.
		Installation	Link Reference 12.
