2013	IS350	2013	RX350
2013	IS350C	2013	GS450H
2013	IS F		

CONDITION

Some Lexus vehicles equipped with Text Reply functionality may display a greyed out Text Reply button if the function is not supported by the customer's cellular telephone.

RECOMMENDATIONS

This condition is normal for iPhones, as the Text Reply function is currently not supported.

The Text Reply button will still appear on the screen; however it will be greyed out to indicate that it is not selectable.

NOTE: Vehicles with older software will always show the Text Reply button, even if the phone does not support this function.
