Introduction

Toyota models equipped with the Premium HDD Navigation (AVN/AW-EMV) System will periodically require an update to the Gracenote[®] Database. Gracenote[®] includes detailed information for songs (i.e. Genre, Artist, Song Title, Album Name, etc.). The Gracenote[®] update will be included on the "USB Drive – Navigation Update" SST. A Gracenote[®] update must be performed before a Navigation Map Update. A Navigation Map Update is not required to complete the Gracenote[®] update. Use the process described in this bulletin to perform the update.
