Entune/Navigation Software Update Process for Display Audio (Non-HDD Type)

Software Update Procedure

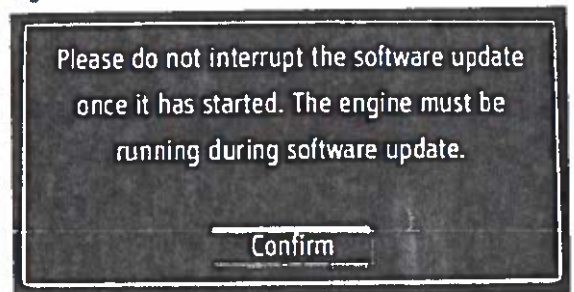

1. Start the vehicle or put hybrid system in Ready ON mode.
2. Turn on the Radio.
3. Press the "Apps" button (the system will switch to the Apps main page).
4. Install USB Drive into vehicle's USB slot (there will be a short pause while the software version is read).
5. An "Update software from X.X.X to 2.2.0?" message will be displayed.

Figure 4.

6. Press "Yes".
7. A "Please do not interrupt the software update once it has started. The engine must be running during software update." message will be displayed.

Figure 5.

8. Press "Confirm" (the engine must be running or hybrid system in Ready ON mode during software update).
9. The Software update will begin and the screen will show a "Package 1 of 8" message, and continue through 8 of 8. It will take approximately 5 minutes for the update to complete.
