

Service Bulletin

INFORMATION

Subject: Maintenance Cleaning of Fuel Injectors

Models: 2015 and Prior GM Passenger Cars and Trucks

This Bulletin has been revised to update the Model Years. Please discard Corporate Bulletin Number 04-06-04-051C.

General Motors is aware that some companies are marketing tools, equipment and programs to support fuel injector cleaning as a *preventative* maintenance procedure. General Motors does not endorse, support or acknowledge the need for fuel injector cleaning as a *preventative* maintenance procedure. Fuel injector cleaning is approved only when performed as directed by a published GM driveability or DTC diagnostic service procedure.

Due to variation in fuel quality in different areas of the country, the only *preventative* maintenance currently endorsed by GM regarding its gasoline engine fuel systems is the addition of GM Fuel System Treatment PLUS added to a tank of fuel at each oil change.

Regular use of a TOP TIER Detergent Gasoline as recommended in the owner's manual will help prevent the build-up of intake valve and fuel injector deposits. A complete list of TOP TIER fuel retailers can be found at www.toptiergas.com.

Parts Information

Part Number	Description
U.S. 88861013 (for U.S. ACDelco, use 10-3003)	GM Fuel System Treatment PLUS 20 oz Bottle (Treats up to 20 gallons of fuel)
U.S. 88861262 (for U.S. ACDelco, use 10-3004)	GM Fuel System Treatment PLUS 12 oz Bottle (Treats up to 12 gallons of fuel)
Canada 88861012	GM Fuel System treatment PLUS 591 ml Bottle (Treats up to 75L of fuel)

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
