

TO: Distributors Only  
FROM: Service Operations  
SUBJECT: **DT12 Detroit Transmission Service Tools**

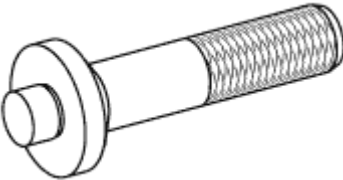

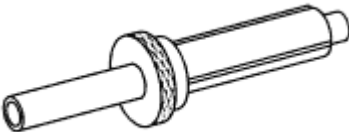

**GENERAL INFORMATION**

The following DT12 Detroit Transmission service tools have been made available for distributors to order. These are necessary in the event of engine removal or clutch replacement.

**NOTE: These tools are used ONLY to aid in the removal and installation of the DT12 transmission in order to work on and / or remove the Detroit engine and does not represent approval to perform DT 12 transmission or clutch warranty repairs or otherwise. Warranty submissions on the DT 12 transmission and clutch will be denied warranty reimbursement.**

.

Tools can be ordered though Paragon using a DDE supplier prefix.

Tool Part Number	Tool Description	Image	Usage
DDE W403589051500	Pilot Bearing Drift		Installation of pilot bearing
DDE W950589006100	Clutch Disk Alignment		Clutch disk installation
DDE W715589013700	Input Shaft Pliers		Rotating input shaft for transmission installation
