Cause:

Protective tarp used for shipping may have stained the canvas

Remedy:

Move on to the next step if stain is not removed from the previous step:

1. Clean the canvas with a high pressure cleaner
2. Clean the surface with MB Canvas Cleaner (A001986337110). Use slightly warm water and brush in the direction of the fibers
3. Go through a car wash
4. Only to be performed if previous measures failed: Replace canvas

NOTE: Stains on the canvas are typically due to external influences. Be sure that stain matches profile shown in the attachments.

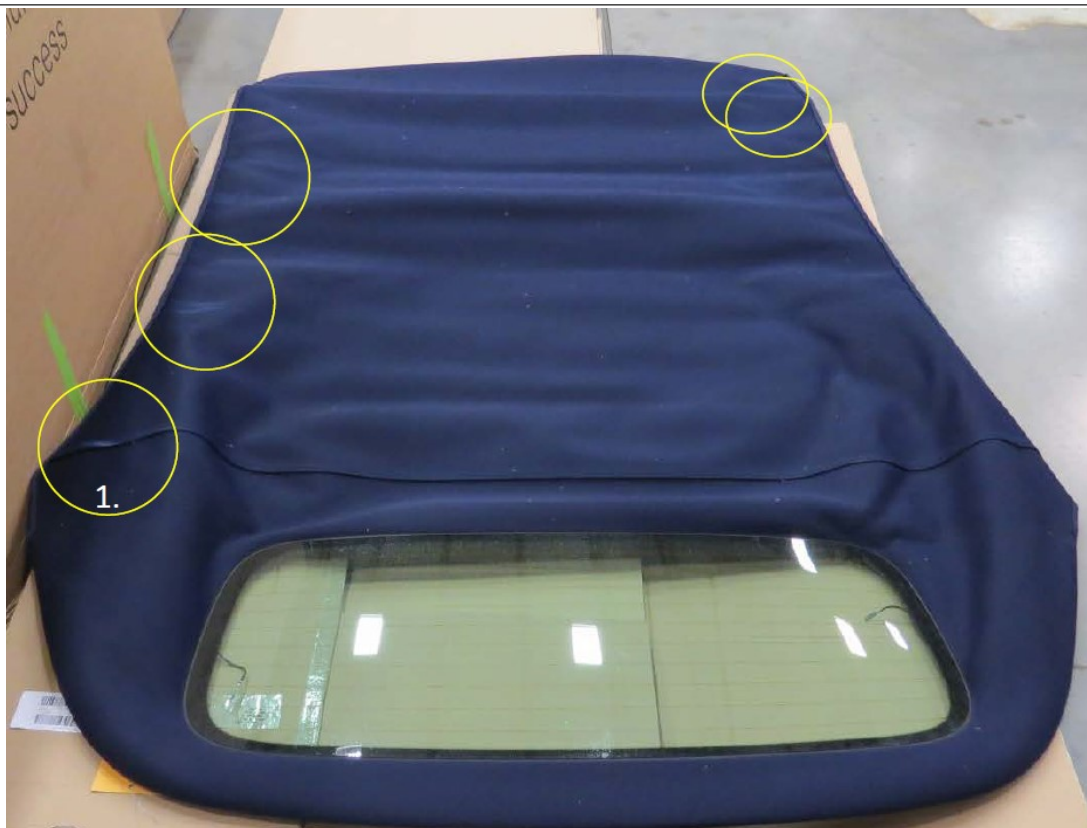

Symptoms
Body / Roof system / Convertible top/vario roof / Chafing/paint damage
