ESSENTIAL TOOL – DIESEL PARTICULATE FILTER (DPF) INJECTOR CLEANING EQUIPMENT (EN-52575, EN-52575-50, J-46911)

AFFECTED VEHICLES

- 2011-2017MY Isuzu N-Series
Equipped with Diesel Engines and Diesel Particulate Filter (DPF)

INFORMATION

Recently, the essential tools – DPF Injector Cleaning Kit (EN-52575), Injector Cleaner Accessory Kit (EN-52575-50), and Injector Seal Installer and Sizer (J-46911) -- were shipped to Isuzu dealers. Isuzu has developed a procedure to remove the carbon buildup from the DPF Fuel Injector tip and to maintain the injector performance level. These essential tools are: Kit 1 – an ultrasonic cleaning machine, and support rack (see Figure 1), Kit 2 – a stand with base, arm with clamp, brass bristle brush, and Pyrex beaker (see Figure 2), and Kit 3 – an injector seal protector, seal pusher and seal sizer (see Figure 3).

DPF Injector Cleaning Kit EN-52575, DPF Injector Cleaner Accessory Kit EN-52575-50, and Injector Seal Installer and Sizer J-46911 combine to make a complete kit for cleaning. The essential tools are used on a bench top (see Figures 1, 2, & 3). Refer to the appropriate service manual for information on when and how to perform the DPF Injector Cleaning procedure.

Figure 1 – Essential Tool – DPF Injector Cleaning Kit - ultrasonic cleaner, and support rack (EN-52575)

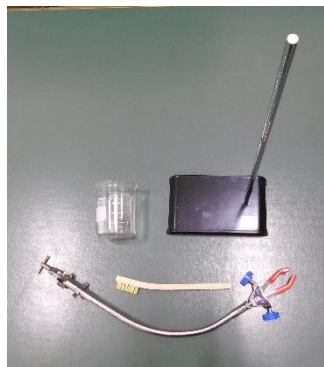

Figure 2 – Essential Tool – Injector Cleaner Accessory Kit - stand with base, arm with clamp, brass brush, and Pyrex beaker (EN-52575-50)

Figure 3 – Essential Tool – Injector Seal Installer and Sizer Kit - seal protector, seal pusher and seal sizer (J-46911)

ORDERING INFORMATION

If additional or replacement tools are needed, please contact Bosch Automotive Service Solutions at (800) 328-6657 for pricing information or to place an order for this essential tool.
