	CT6						
	CTS						
	Escalade Models						
	XTS						
Chevrolet	Camaro	2019	2019			All	All
	Corvette	2018	2019				
	Suburban						
	Tahoe						
GMC	Yukon Models	2018	2019				

Involved Region or Country	North America and N.A. Export Regions
Additional Options (RPOs)	Equipped with Head-Up Display (RPO UV6)
Condition	Some customers may comment that the image projected on the windshield from the Head-Up Display (HUD) is on an angle.
Cause	The cause of the condition may be that HUD image rotation angle can be adjusted, and may have been adjusted previously by the customer, or someone else.
Correction	<p>Important: DO NOT replace the HUD for this concern.</p> <p>Verify proper HUD adjustment by accessing the Adjust Mode using the steering wheel controls:</p> <p>Go to > DIC > Options > Head Up Display Rotation > Follow arrow prompts</p> <p>If this resolves the customer concern:</p> <ul style="list-style-type: none"> • Please review this information with the customer. • Explain that the HUD system is working as designed. • Please provide a copy of this Bulletin to the customer. <p>If an adjustment does not resolve the customer concern, please refer to the diagnostic recommendations <i>Head Up Display Malfunction</i> in SI.</p>
