Adapting Remote Start Keys

Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
Atlas, Tiguan LWB	2018-2019	All	All	All	All
Jetta	2018-2019	All	All	All	All

Technical Background

After installing a remote start kit, or when adding a new remote start key, adapting the remote keys will be necessary. In some instances the incorrect test plan may be used (Adapt Remote Start Remote Control, under guided functions in AW 09). As such, the test plan will request the following: “- Enter the key number (RF_ID) for the remote start control.”

Service

Once the remote start kit has been installed, adapt all keys (new remote start keys and the original keys) by performing the “Adapt immobilizer” test plan in O.D.I.S. Service. The test plan can be found under the “Special functions” tab, in the “Immobilizer functions” section. When adapting the keys, start with the new remote start keys, continue with the original keys, then any valet keys (if present).
