Tools: **9818 - PIWIS Tester 3**

Work
Procedure:

Information

Since the size and shape of the PORSCHE projector differs from the door warning light installed in the vehicle, the door panels **must** be removed.

- 1 Remove door panels
 - 1.1 Remove door panels on driver's and passenger's side. ⇒ *Workshop Manual 'Removing and installing front door panel'*
 - 1.2 Remove door warning light.
 - 1.3 Insert PORSCHE projector "at the bottom" so that the retaining lugs at the left and right ⇒ *Figure 3-1-* are engaged securely. Clip in projector at the top and make sure that the retaining lugs at the left and right ⇒ *Figure 3-2-* engage. Check that the projector is fitted securely.

- 1.4 Install door panels on driver's and passenger's side. ⇒ *Workshop Manual 'Removing and installing front door panel'*

Figure 3

2 Concluding work

- 2.1 Read out and erase the fault memory. ⇒ *Workshop Manual 'Fault memory for on-board diagnosis'*

Working Time: Installing 96162440 PORSCHE projector.

Labor time: **110 TU**

Includes: Removing and installing door panels on driver's and passenger's side, reading out and erasing fault memory

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
