Coverage Components of this Customer Confidence Program

Element #1 – Repair Coverage for Certain Internal Functional Concerns of the Sliding Doors

This Customer Confidence Program provides coverage for repairs to **the power sliding door cable sub-assembly***, the **sliding door center hinge assembly**, the **sliding door front lock assembly**, the **power sliding door rear lock assembly***, and the **fuel filler door hinge and pin**. Only repairs that are related to internal functional concerns of these components that impede the closing and/or opening operations of the sliding door in manual and/or power modes are covered by this Customer Confidence Program.

Toyota is offering this coverage in five individual Customer Support Programs.

Covered Component	Individual Toyota Customer Support Program
Power Sliding Door Cable Sub-Assembly*	Customer Support Program ZKD
Sliding Door Center Hinge Assembly	Customer Support Program ZKF
Fuel Filler Door Hinge and Pin	Customer Support Program ZKE
Power Sliding Door Rear Lock Assembly*	Customer Support Program ZH5
Sliding Door Front Lock Assembly	Customer Support Program ZH4

If a condition involving a covered component that is covered by the Customer Confidence Program (i.e., a condition that is an internal functional concern of the covered component that impedes the closing and/or opening operations of the sliding door in manual and/or power modes) is verified, the dealer will replace the affected covered component with an improved component under the terms of this Customer Confidence Program.

*: These programs/components are only applicable to Subject Vehicles equipped with power sliding doors because manual sliding doors are not equipped with these components.

- ***This coverage will be offered to all subject vehicles for 10 years from the vehicle's date of first use regardless of mileage.***

This coverage is for work performed at an authorized Toyota dealer only. It is subject to the same terms and conditions set forth in the New Vehicle Limited Warranty Section of the Owner's Warranty Information booklet. For example, damage from abuse, an accident, theft and/or vandalism is not covered.

Expansion of the UIO and the Coverage of Customer Support Programs ZH4 and ZH5

- Customer Support Programs ZH4 and ZH5 have been expanded to include additional Sienna vehicles.
- Customer Support Programs ZH4 and ZH5, which were originally applicable for nine years from the Subject Vehicles' date of first use regardless of mileage, will be extended by one additional year regardless of mileage.
- Refer to [Customer Support Program ZH4](#) and [Customer Support Program ZH5](#) for additional information.

Element #2 – Sienna Sliding Door Functional Inspection

Customers whose vehicles are eligible for this *Sienna Sliding Door Functional Inspection* that have a concern about their vehicle's sliding doors may bring their vehicle to a Toyota dealer and request the Toyota dealer to inspect the sliding doors. The *Sienna Sliding Door Functional Inspection* should only be performed upon customer request. If the customer requests a Toyota dealer to perform the *Sienna Sliding Door Functional Inspection*, the Toyota Dealer will follow the procedure in [T-SB-0069-19](#) to inspect each of the components covered by Customer Support Programs ([ZKD/ZKE/ZKF/ZH4/ZH5](#)) for the conditions covered by those programs. If a covered condition is identified during the inspection, the dealer should replace the covered component under warranty, or perform the corresponding Customer Support Program if the vehicle is out-of-warranty and still eligible for the Customer Support Program.

Refer to the *Sienna Sliding Door Functional Inspection* ([ZKJ Dealer Letter](#)) on TIS for additional information.

Element #3 – 1-Year Extension of Replacement Parts Warranty for the Remedy Parts of Safety Recall G04

The remedy parts for Safety Recall G04 are already subject to a one-year replacement part warranty under the terms of Warranty Policy 4.8.

Under the terms of this Customer Confidence Program ZKI, this one-year replacement part warranty will be extended an additional one year – for a total of two years – from the date that Safety Recall G04 was or is performed. If Safety Recall G04 was performed more than one year prior to June 10, 2019, then this Customer Confidence Program will provide an additional one year of coverage from June 10, 2019 (i.e. the coverage will be available until June 11, 2020).

Note: Only vehicles involved in Safety Recall G04 (approximately 744,400 vehicles) are covered by this element of the Customer Confidence Program.

Diagnostic Fees for Customer Support Programs

Diagnostic Fees for Customer Support Programs

Per Toyota's usual policy for Customer Support Programs, if the vehicle's condition is not covered by the relevant Customer Support Program (ZKD/ZKE/ZKE/ZH4/ZH5), the owner may be responsible for the initial diagnostic fees and any other repairs they may decide to have performed.

Customers whose vehicles are eligible for the *Sienna Sliding Door Functional Inspection* that have a concern about their vehicle's sliding doors may bring their vehicle to a Toyota dealer and request the Toyota dealer to inspect the sliding doors. The *Sienna Sliding Door Functional Inspection* should only be performed upon customer request.
