

**** SOLUTION ****

Title	Volvo Chassis Tire Pressure Monitor System (TPMS): Enabling Tire Pressure Display In The Instrument Cluster - US10+OBD13 And Newer, Common Model Year 2014 And Newer
-------	--

Volvo Models

Volvo Model	VN , VNL , VNM , VNR , VNX , VAH , VHD
-------------	--

Emission Standard

Emission Standard	US10+OBD13 , US14 , US14+OBD13 , US14+OBD15 , US14+OBD16 , US17+OBD16 , US17+OBD18 , US17+OBD19
-------------------	---

**** SOLUTION ****

Cause	Programming instructions to enable the tire pressure screen in the instrument cluster for OBDII vehicles with a 16-pin diagnostic connector.
-------	--

Solution

To enable TPMS visibility in the instrument cluster:

1. In Premium Tech Tool, run Operation 1700-22-03-06 Accessory Kit, located under the Program tab.
 2. In the entry field, enter Accessory Kit number 85141568.
 3. Click the Program button. Follow any remaining prompts.
-

Solution visibility	Dealer distribution
---------------------	---------------------

Function(s)/component(s) affected

Function affected	MID 140 – IC04 / IC05 , dashboard/information display , Tire Pressure Monitoring System
-------------------	---

Function Group

Function Group	381 combined instrument , 385 pressure and vacuum gauges
----------------	--

Customer effect

Main customer effect	calibration/programming/pairing/missing operation
----------------------	---

Administration
