Front Seat Cushion Deteriorating

F-PACE & XF 17 – 19MY

Customer Voice:

- A customer may report that the front seat bolsters are sagging or the seat has become hard and uncomfortable.

Technical Description:

- The seat cushion foam has become torn or damaged by the seat frame work and requires replacement.

Status:

- This issue is currently under investigation.
- Should this concern be found, please submit an EPQR for the vehicle with pictures of the seat foam assembly to aid in the investigation.
