

## Steering column clicking or cracking noise

Topic number	LI46.10-N-058722
Version	1
Design group	46.10 Steering wheel, casing tube, steering shaft, steering lock
Date	03-14-2014
Validity	Model 906 with code (XM0) Facelift
Reason for change	
Reason for block	

**Complaint:**

Steering column clicking or cracking noise.

**Cause:**

Steering column bearings (see Figure 01).

Attachments	
File	Designation
01.JPG	Steering column bearing

**Remedy:**

Do not replace any parts.

After a certain time or running-in period (approx. 650 miles, depending on operating conditions), the shape of the tolerance ring adapts itself to the movements of the inner bearing race and the noise disappears.

Symptoms
Chassis/suspension / Steering system / Steering noise / Cracking

Validity		
Vehicle	Engine	Transmission
Sprinter III	*	*
