### Product Change Notice - White to black tape for black entry doors

Dear Valued Customer:

Please be advised LCI is changing the tape on black extruded entry door thresholds from white to black.

The tape is installed at each end of the threshold piece (Fig. 1). The change is being made to improve the appearance of the door (Figs. 2 and 3). The white and black tape are the same type and provide the same seal at the threshold. White tape will continue to be used on white extruded doors.

The change affects the door appearance only and does not change fit, form, function or operation. There is no price change and no part number change. The change is expected to begin Nov. 15.
