Subject: Suspect Loose Torque on Flywheel Housing

Hey [REDACTED]

I wanted to make you aware of a problem that we have on some engines for DTNA. There are 6 Engines that shipped with suspect low torque on the flywheel housing. I have spoken with the Mechanics and they should have this same list shortly. We were also checking with the warehouse to see if they could help us locate the engines. Please note the list below.

ENGINE_SERIAL_NO	Engine Size	DATE_SHIPPED	SHIP_TO_CODE	CUSTOMER_NAME	CHASIS_NUMBER	Customer Spec No
[REDACTED]	6B	25-Oct-19	[REDACTED]	EFF - DTNA S	[REDACTED]	C01-00255-476
[REDACTED]	6C	29-Oct-19	[REDACTED]	EFF - DTNA S	[REDACTED]	C01-00283-900
[REDACTED]	6B	7-Oct-19	[REDACTED]	EFF - DTNA N	[REDACTED]	C01-00255-525
[REDACTED]	6C	24-Oct-19	[REDACTED]	EFF - DTNA N	[REDACTED]	C01-00283-788
[REDACTED]	6B	25-Oct-19	[REDACTED]	EFF - DTNA N	[REDACTED]	C01-00268-204
[REDACTED]	6B	30-OCT-19	[REDACTED]	EFF - DTNA N	[REDACTED]	C01-00255-471

Give me a call when you have time and we can talk in more detail.

Regards,

Josh [REDACTED]
