

Tech Tip T-TT-0582-19

November 12, 2019

USA

Squeak/groan noise from steering intermediate shaft

area

Service Category
Steering

Steering Column

2019-2020 RAV/HV

APPLICABLE VEHICLES

2019-2020	RAV4	2019-2020	RAV4 HV

CONDITION

Customer states that there is a squeak or groan noise from the steering column area when turning the steering wheel.

RECOMMENDATIONS

Do not apply any lubricant or water to intermediate shaft or seal. This could damage the seal or lead to a repeat repair. Isolate noise using stethoscope and replace affected components.
