Vehicle Technical Info

NOTE: The ✓ mark indicates an article repeated from a previous issue of Tech Talk.

GROUP 23-Automatic Transmission

NEW PART NUMBER FOR J3 CVT FLUID — All with CVT. Parts Bulletin OP-XX announced that part number 4031610 CVT fluid is superseded by MZ320286. The new part number is supplied in 1 quart bottles, replacing the existing 4 liter container. The quantity unit pack (QUP) for MZ320286 is 12 quarts to a case.

GROUP 42A-Body

TPMS LIGHT ON WITH DTCS C1911, C1921, C1931, AND/OR C1941: RECEPTION ABNORMAL — 2013 Outlander Sport. MMNA is investigating abnormal TPMS sensor signals in 2013 Outlander Sport. If you encounter a vehicle with these DTCs before July 31, 2013, record the 8 digit TPMS sensor number for all sensors,

re-register the sensors to the vehicle, then record the new sensor numbers. Email the information to Dan Sherman at dcsherman@mmsa.com.

GROUP 54 - Chassis Electrical

STEERING COLUMN LOCK ELIMINATED — 2013 Outlander Sport. TSB-12-00-013 informed technicians the steering column on 2013 Outlander Sport no longer locks when you remove the ignition key from the switch, or the F.A.S.T. key from the vehicle. Having an electronic immobilizer system to prevent theft eliminates the need to lock the steering column.

GROUP 66-Accessory

✓ **NO AUDIO RESPONSE WHEN "SPEECH" BUTTON IS PRESSED** — All with accessory Bluetooth handsfree telephone installed. If there is no verbal response when trying to make a call using handsfree, and the display reads "Listening," the radio speaker used for telephone audio may be faulty. Make one of your first diagnostic steps a check that all speakers function properly. This can be done by adjusting the radio's fade and balance controls to isolate individual speakers while listening to the radio.

The following list of speakers used for handsfree audio is provided for your information:

- Lancer vehicles, Outlander. Outlander Sport, Galant - front passenger door speaker.
- Endeavor - front driver's door speaker.
- Eclipse, Eclipse Spyder - driver's side tweeter (a-pillar trim).
- i-MiEV - front passenger door speaker.

MEDIC Information

MEDIC 3 Version - 3.2	MEDIC 3 Update - 170
MUT-III Version - 28.0	Raider Scan Tool Version - 6.0

Spotlight On....

Valley Mitsubishi, Medina, OH

This column spotlights a different high scoring CSI dealer every quarter.

PICTURED (l-r): Leo Beer (Service Mgr), Brian O'Donnell (Dealer Principal).
NOT PICTURED: Ed Moeller,(Master Technician), Caleb Dean(Technician)

Striving for excellence. This phrase describes the Service team's goal when they walk into the building each day. Valley Mitsubishi in Medina OH, is under the ownership of Brian O'Donnell, a dealer with 34 years of automotive industry experience. The business is family operated, with the overall goal of providing "better deals" and forging long-lasting relationships with their new and used car customers.

Service Manager Leo Beer has been in the automotive industry for eight years. He's a true gear head who enjoys racing anything he can get his hands on. Valley's shop is small, and he is also the service adviser and manages the parts department. Leo and his team pride themselves in the job being completed correctly the first time, and know that time is a commodity for their customers. They understand that actually listening to what a customer says about their vehicle is a primary step for great service, and a key piece to the ultimate goal of customer satisfaction. They are eager to please and make follow-up phone calls to customers after repairs are complete to make sure everything went as the customer expected. The team strongly advocates providing information to customers about future maintenance and repairs, as well as having a policy of "no forced selling" (they let the customers make their *own* decisions). With Leo, the customer is always the first priority, as the Service Team provides prompt service and easy appointments along with the most important detail: accurate repairs.

The technical team is comprised of two technicians: Ed Moeller and Caleb Dean. Ed is an experienced, detail oriented, Mitsubishi Master Technician with 19 years of experience with the brand. His attention to detail is his strong suit, which helps with his hobby of building model trains and railroad layouts. Caleb is a capable, talented technician, with 5 years of experience with Mitsubishi. In his spare time, he's a musician and also has a detail oriented hobby in building aquariums.

According to Leo, "Our *Customer Satisfaction Index* is not just a number that we receive monthly, but a testament to how we provide service to our many customers every day. The CSI score confirms to our team that we are communicating with our customers properly and efficiently. This is the "guide map" so to say, for our service team." He goes on to say that their score would not be possible without their customers. "Our customers never cease to amaze us when they grace us with a warm smile, a friendly introduction, or a friendly conversation even on cold, wintery days."

At Valley Mitsubishi, striving for excellence is not just a saying or a goal, it's what they do, day in, day out. It's an attitude. Congratulations to Brian, Leo and their team for a great job satisfying customers.
