GMC	Acadia	2020	ALL	ALL	ALL	M3G M3H M3V M3W
GMC	Terrain	2018 - 2020	ALL	ALL	ALL	M3D M3H M3U

Involved Region or Country	North America and NA Exports.
Condition	Un-able to perform the shift characterization when installing replacement Solenoid Body Assembly due to only 11 digit PUN (Part Unique Number) found on the Service Solenoid Body Assembly.
Cause	Service Solenoid Body Assembly may not have the 16 digit PUN (Part Unique Number) printed on the assembly.

**Correction:**

Use a QR scan code reader to obtain the full 16 digit PUN (Part Unique Number).

If 16 digit PUN (Part Unique Number) is not read when scanned, can try information listed below as the first 5 digits to use in front of the 11 digits printed on the Solenoid Body Assembly.

First five digits are dependent as to where the part was manufactured as well as Calendar Year built, can try WL0Y9, WL0Y0, WL4P9, or WL4P0.

Example using above picture should be "WL0Y931001851MD1" as this part was manufactured in the Calendar Year 2019.

If still un-able to complete the shift characterization with the 16 digit PUN, verify the digits being used are not transposed, and ensure "0" is being used and not "O".

Contact TAC for further research, if needed.
