## Product Change Notice - Bed tilt aluminum frame

Dear Valued Customer:

Please be advised, to reduce the overall weight of the system, LCI intends to change its bed tilt frames from welded steel (Fig. 1) to aluminum with rivets (Fig. 2).

- System with welded steel frame – 39.40 lbs
- System with aluminum riveted frame – 26.21 lbs
- Difference in weight between two systems – 13.19 lbs

There is no change in fit, form, function or installation with the change in material. There is no price change and no part number change. The change is expected to take place in the first quarter when current inventory is depleted.

**Current  
welded**

**New  
Rivets**
