

# Service Bulletin

Bulletin No.: 15-00-89-005C

Date: February, 2020

## WARRANTY ADMINISTRATION

**Subject:** Essential Tools that include Consumable Parts (U.S. Only)

**Models:** 2020 and Prior GM Passenger Cars and Trucks

**This bulletin has been revised to add the 2020 Model Year and update the GM Service Policies & Procedures Manual reference at beginning of bulletin. Please discard Corporate Bulletin Number 15-00-89-005B.**

Per the GM Service Policies & Procedures Manual, Service Agents are to purchase, at a minimum, all essential special service tools required to service all models currently covered by the GM New Vehicle Limited Warranty. Certain special service tool kits contain consumable repair parts that are intended to be permanently installed on vehicles.

In the event that one or more of these consumable repair parts are utilized during a vehicle repair, the following table will guide you on the amount to submit as part of the repair transaction. These consumable parts fall outside of the definition of shop supplies and are to be submitted as a Net Miscellaneous item on the repair transaction.

**Note:** Only parts listed below that were purchased inside the Bosch Automotive Service Solutions distribution network may be charged as explained in this bulletin.

### Transaction Requirements

**Job Card** - Document the quantity and the Bosch Automotive Service Solutions part number(s) (Special Tool number) used for the each repair line on the job card.

**Net/Miscellaneous** - Using the chart below, calculate the total cost of consumed part(s) used for the repair. Submit the total cost plus normal mark-up percentage allowance in the Net/Miscellaneous field. When entering an amount in Net/Miscellaneous, an additional free-flow text field will appear requiring you to submit information to describe the expense. List the tool number used. If more than one part of a consumable tool was used for a single repair, list the tool number related to the largest expense charged.

### Consumable GM Tool Pricing Chart

Components	Description	Pack Price	Cost per Piece*

<b>J-41447-1 R-134A &amp; R-1234YF TRACER DYE</b>			
	(24 PK 1/4 OZ)	\$86.02	<b>\$3.58</b>

\*The price listed in **BOLD** is per piece (or as otherwise listed) and should be used to calculate the amount charged on the warranty transaction in **Net/Miscellaneous**. Enter the entire tool number in the Net/Misc description field. Example: Two J-42385-215

inserts are used during a warranty repair. The amount charged to Net/Misc would be \$2.00 plus normal warranty mark-up. Enter **J-42385-215** in the description field for Net/Misc.
