**Subject:** Warranty start date and brake fluid wear reset DEIS cycle

Please note that whenever a new vehicle is delivered to a customer, the **Warranty Start Date** must always be entered into the system following the procedure described in paragraph 2.3.1 of the **Aftersales Procedure Manual**.

For the models listed above, in addition to the entering the **Warranty Start Date**, the **DEIS** cycle

- “NQS brake fluid change service reset” must also be performed upon delivery of the new vehicle.

This reset procedure is necessary to synchronize all services related to the maintenance.

Thank you for your co-operation.
