Product Change Notice - All black mold tape for baggage door seams

Dear Valued Customer:

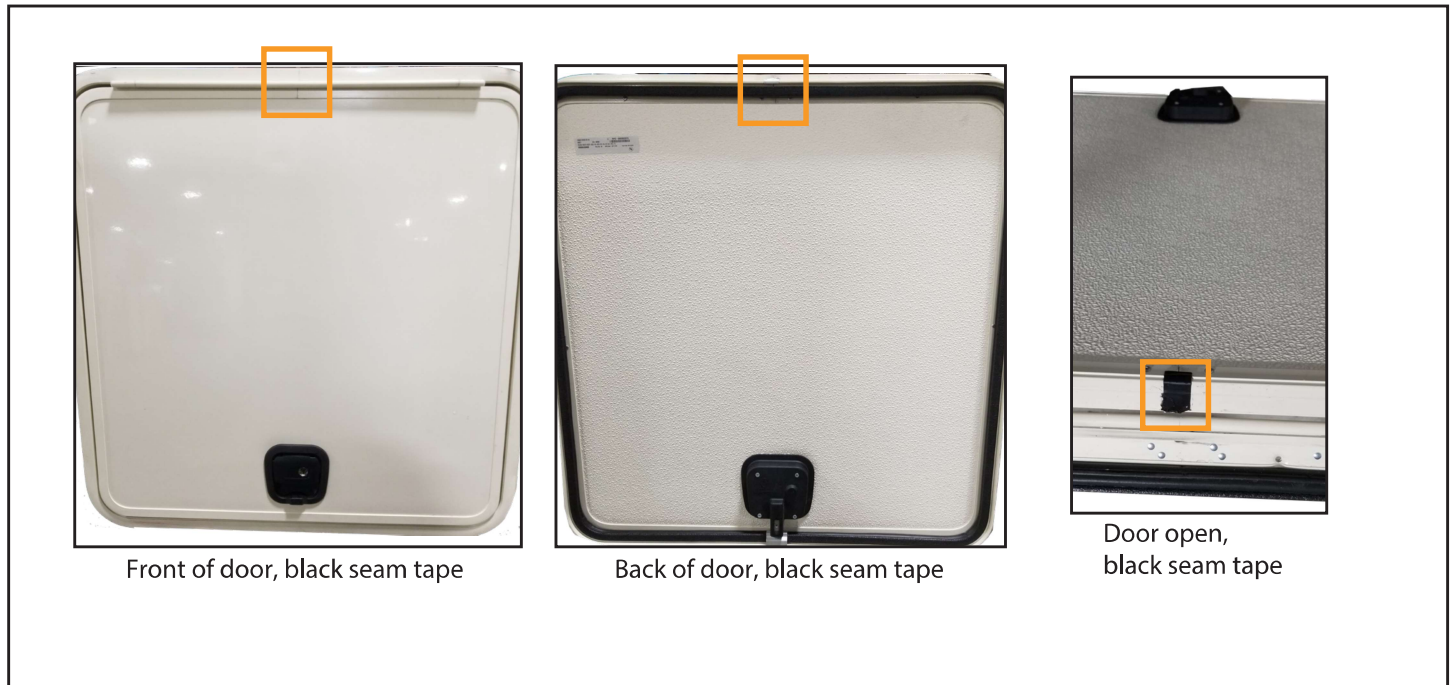

Please be advised we intend to switch all baggage door inner seam tape to black mull tape. The change applies to ivory slam latch (pictured) and thumb turn latch doors.

Currently, white tape is used only on ivory doors. LCI determined the black seal tape is more adhesive than the white and performs better in the field.

The tape is used on the seam inside the door and is not visible when the door is closed (orange boxes mark the seam and tape location). There is no change in fit, form or function of the door. There is no price change and no part number change for the baggage doors.

The change is expected to take place around July 1, 2020.
