**TOL Ref. # 14787-MCS**

## ROCKET 3 R AND GT CONVERSION ACCESSORIES

As Rocket 3 motorcycle sales continue to surge, and inventory of both R and GT models diminish, we are aware some of you may have a need to convert your remaining R models to GT or vice versa. To assist you in doing so, we have created two simple conversion reference charts.

With the exception of forward controls, we currently have at least 20 of each item in stock. Forward controls are expected to be replenished in early June.
