Overview of components covered by the warranty extension

PART ID	Designation
3965	Transfer gear

Information: **Scopes not covered by this extended warranty**

Any damage or malfunctions caused by external influences such as damage as a result of an accident, incorrect use or neglect of the vehicle.

Restrictions on cover of the extended warranty

The warranty and service information in the vehicle includes information about the warranty conditions for the vehicle. The owner should always read these warranty conditions carefully as the rights and obligations listed there also apply for the extended warranty.

Invoicing:

For processing warranty claims using the "Extended Warranty Transfer Gear", the claim must be entered by specifying **Warranty type 111** under **PART ID 3965 – Transfer gear** as the **component responsible for causing the problem**. The damage category must be selected in accordance with the customer complaint.

If a mobility option is required in relation to repairs covered by the Technical warranty extension, this can be invoiced as part of the existing customer mobility programme. The Customer mobility programme regulations apply unchanged.

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
