Product Change Notice - Solera® Awning Shield attachment

Dear Valued Customer:

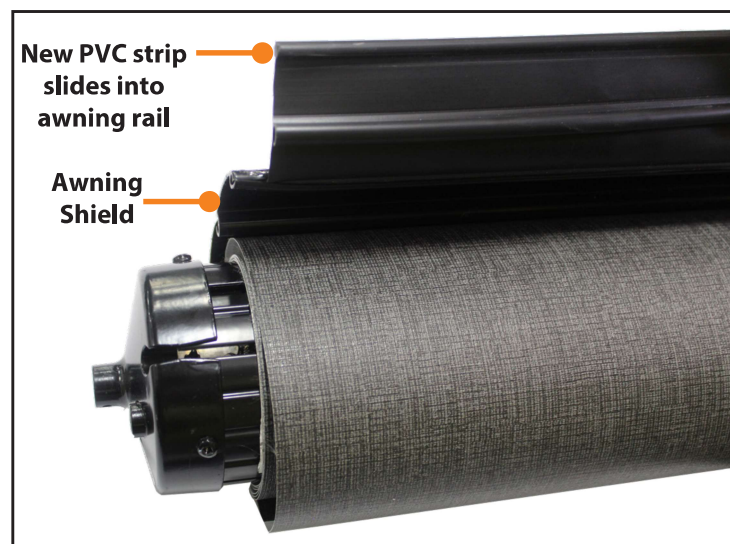

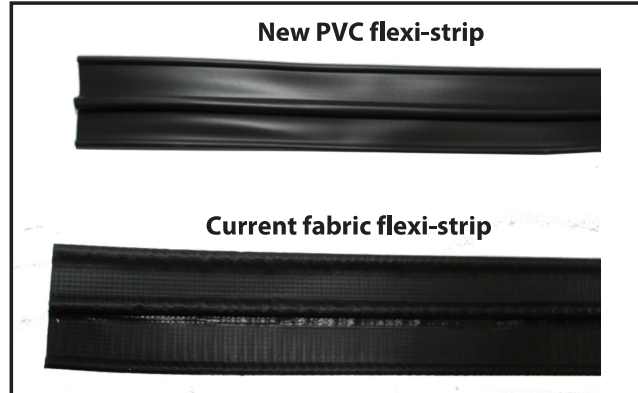

Please be advised LCI intends to change the flexi-strip on the Solera Awning Shield from fabric to PVC.

There is no change for the customer in fit, function or installation. The PVC flexi-strip slides into the awning rail on the unit in the same way as the fabric strip with polycords. The PVC piece also attaches to the awning shield in the same manner as the current fabric piece.

The change was made as an internal production improvement to eliminate the need for welding and folding the fabric piece on two separate polycords.

The part number for the current fabric piece is 676241 and the part number for the new PVC piece is 2020129277.

The change will be made on a running basis, starting around the first week of September.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Scott McKinnon
Product Manager
