Audi Phone Box-Equipped Vehicles

Operation of the Audi Phone Box is subject to the following requirements of the Federal Communications Commission:

This is a CONSUMER device.

BEFORE USE, you MUST REGISTER THIS DEVICE with your wireless provider and have your provider's consent. Most wireless providers consent to the use of signal boosters. Some providers may not consent to the use of this device on their network. If you are unsure, contact your service provider.

You MUST operate this device with approved antennas and cables as specified by the manufacturer. Antennas MUST be installed at least 20 cm (8 inches) from any person.

You MUST cease operating this device immediately if requested by the FCC or a licensed wireless service provider.

WARNING. E911 location information may not be provided or may be inaccurate for calls served by using this device.

Make # _____ FKW _____
Model # _____
Serial # _____ FKW - _____
FCC ID _____

This Signal Booster fulfills the FCC requirements for the Network Protection Standard (NPS). It incorporates features to prevent harmful interference to wireless networks like:

- ▶ Anti-oscillation to detect and mitigate any unintended oscillations in uplink and downlink frequency bands,
- ▶ Adaptive gain control with self-monitoring and to power down automatically as approaching any affected base station,
- ▶ Uplink Inactivity to shut down the transmit amplifiers if not serving an active device connection.

This Signal Booster includes features to prevent harmful interference. These features are enabled and operating at all times the signal booster is in use, they may not be deactivated by the operator.
