Product Change Notice – Spring Lock for 8800 Series Horizontal Sliding windows

Dear Valued Customer:

As part of our ongoing efforts to improve product performance, the spring loaded window lock used on 8800 Series Horizontal Sliding Windows will undergo a running change. The latch travel on these locks will be increased, allowing for deeper insertion into the fixed meeting rail. This change is being undertaken to make the lock engagement more robust.

Products affected are: 8800DW and 8800HS Series windows

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

Robert J Luter II
