# Tundra Dash Appliqué A/C Control Panel Illumination

## Applicability

YEAR(S)	MODEL(S)	INSTALLED ACCESSORY INFORMATION		
		DESCRIPTION	ACCESSORY CODE	KIT PART NUMBER
2014-17	Tundra	Carbon Fiber Dash Appliqué	DFSX10	00016-34061 or 00016-34062

## Introduction

The Southeast Toyota carbon fiber dash appliqué restricts the backlighting of the A/C control panel blower speed, temperature control, and mode selection switches. This may hinder visibility of A/C controls in low light conditions. Revised Dash Appliqué, 00016-34A61-IP utilizes cut outs in the switch locations to address this concern.

### Repair

**Note:** The Southeast Toyota Carbon Fiber dash overlay affixes to the AC Control panel using adhesive tape. Care should be taken not to damage AC control panel during removal of appliqué.

1. Starting at a corner, peel appliqué from surface of AC control Panel.
2. Clean IP control panel surface with 50/50 alcohol and water solution.
3. Position appliqué over dash to check for proper fit prior to install.
4. Remove adhesive liner from appliqué. Do not touch adhesive during installation.
5. Align appliqué uniformly to edges; gently place appliqué onto factory dash (Fig. 1)
6. Once positioned correctly, press firmly on appliqué from the center outward toward edges to ensure maximum adhesion contact.
